---

PROFESSIONAL EXPERIENCE

Leyeco V Electric Cooperative, Inc
Software Developer
Ormoc City, Philippines | Sep 2023 – Sep 2025

- Led the rebuild of a mission-critical ERP system for a major electric cooperative in Leyte, delivering modernized core systems for Complaint & Work Order Management, Procurement, Inventory, and Fleet Management.
- Led the end-to-end development lifecycle, from requirements and architecture to deployment, ensuring stable releases and seamless adoption across departments.
- Performed user acceptance testing (UAT) with stakeholders, ensuring functionality, usability, and alignment with business requirements.

Revolution of Kitten, Inc.
Software Developer
Remote | Cebu City, Philippines | Aug 2022 – Aug 2023

- Built immersive, interactive 3D VR experiences using Matterport SDK and Three.js for virtual tours and digital walkthroughs.
- Strengthened platform reliability by implementing automated end-to-end testing.

MTI Advance Test Development
Web Developer
Remote | Muntinlupa City, Philippines | Feb 2022 – Aug 2022
- Migrated core front-end systems from vanilla JavaScript to Vue.js, improving maintainability and reducing code complexity.
- Developed data migration tools to securely import and validate client records from CSV files.

FREELANCING EXPERIENCE

CDRRMO MIS – Ormoc City Government
Full Stack Developer
Ormoc City, Philippines | Jan 2021 – Feb 2022
- Built an incident management and dispatching system to digitize reporting workflows and improve disaster response operations.
- Developed real-time dashboards, resource tracking tools, and improved the public-facing website.

Sales & Asset Management System
Full Stack Developer
Ormoc City, Philippines | Jun 2020 – Jan 2021
- Developed a management platform for sales, inventory, customer data, and asset maintenance.
- Implemented analytics and reporting tools for operational and financial insights.

PERSONAL PROJECTS

Gymly PH - A SaaS platform for gym owners to manage memberships, track attendance, and access performance analytics.
Simple POS - A SaaS store management solution for small-to-medium retail businesses, providing sales, inventory, and reporting tools.
Moneyflow - Personal finance tracker for income, expenses, and cash flow.

EDUCATION

WESTERN LEYTE COLLEGE OF ORMOC CITY
Bachelor of Science in Information Technology
2015 - 2019
Awards:
- Software Engineer of the Year 2018 - 2019
- Best Programmer of the CICTE for the Academic Year 2018 - 2019
